Welcome Message

At Mindset Wealth you will learn how to create extreme WEALTH while making the world a BETTER PLACE. You will also meet a global group of like-minded people, and future partners, with new perspectives and an unshakeable hope for creating wealth while doing good.

Our network will empower you to achieve your bigger dreams. Your collaboration and participation in our events is a key part of our strategy. Together we will have a global impact.

Thank you for your interest in changing your life and contribution for making humanity a safer, better, and happier place. The Mindset Wealth community is growing every single day, and with your support, we aim to achieve every corner of the world.

As a community, we have a lot to achieve together. We are beyond grateful for your support, and we hope we can have you even more involved in the community. Together, with your support, we can help solve many global problems.

Thank you,
Mindset Wealth's Team

OUR VISION

Our program will help you get inspired, educated and get results. In Mindset Wealth, you'll get the tools, central concepts, and mindsets for making the world a better place while creating tremendous wealth. You'll learn:

Attending this conference You will understand how to create positive mindset thinking: Discover technology's role in creating value, understand the power of a positive mindset and learn how to anticipate the future. Learn how to benefit from the digitization, reduction in cost, and democratization of the new products and services. What you will learn will give you an unfair advantage in your startups, and how you analyze the future of companies and industries.

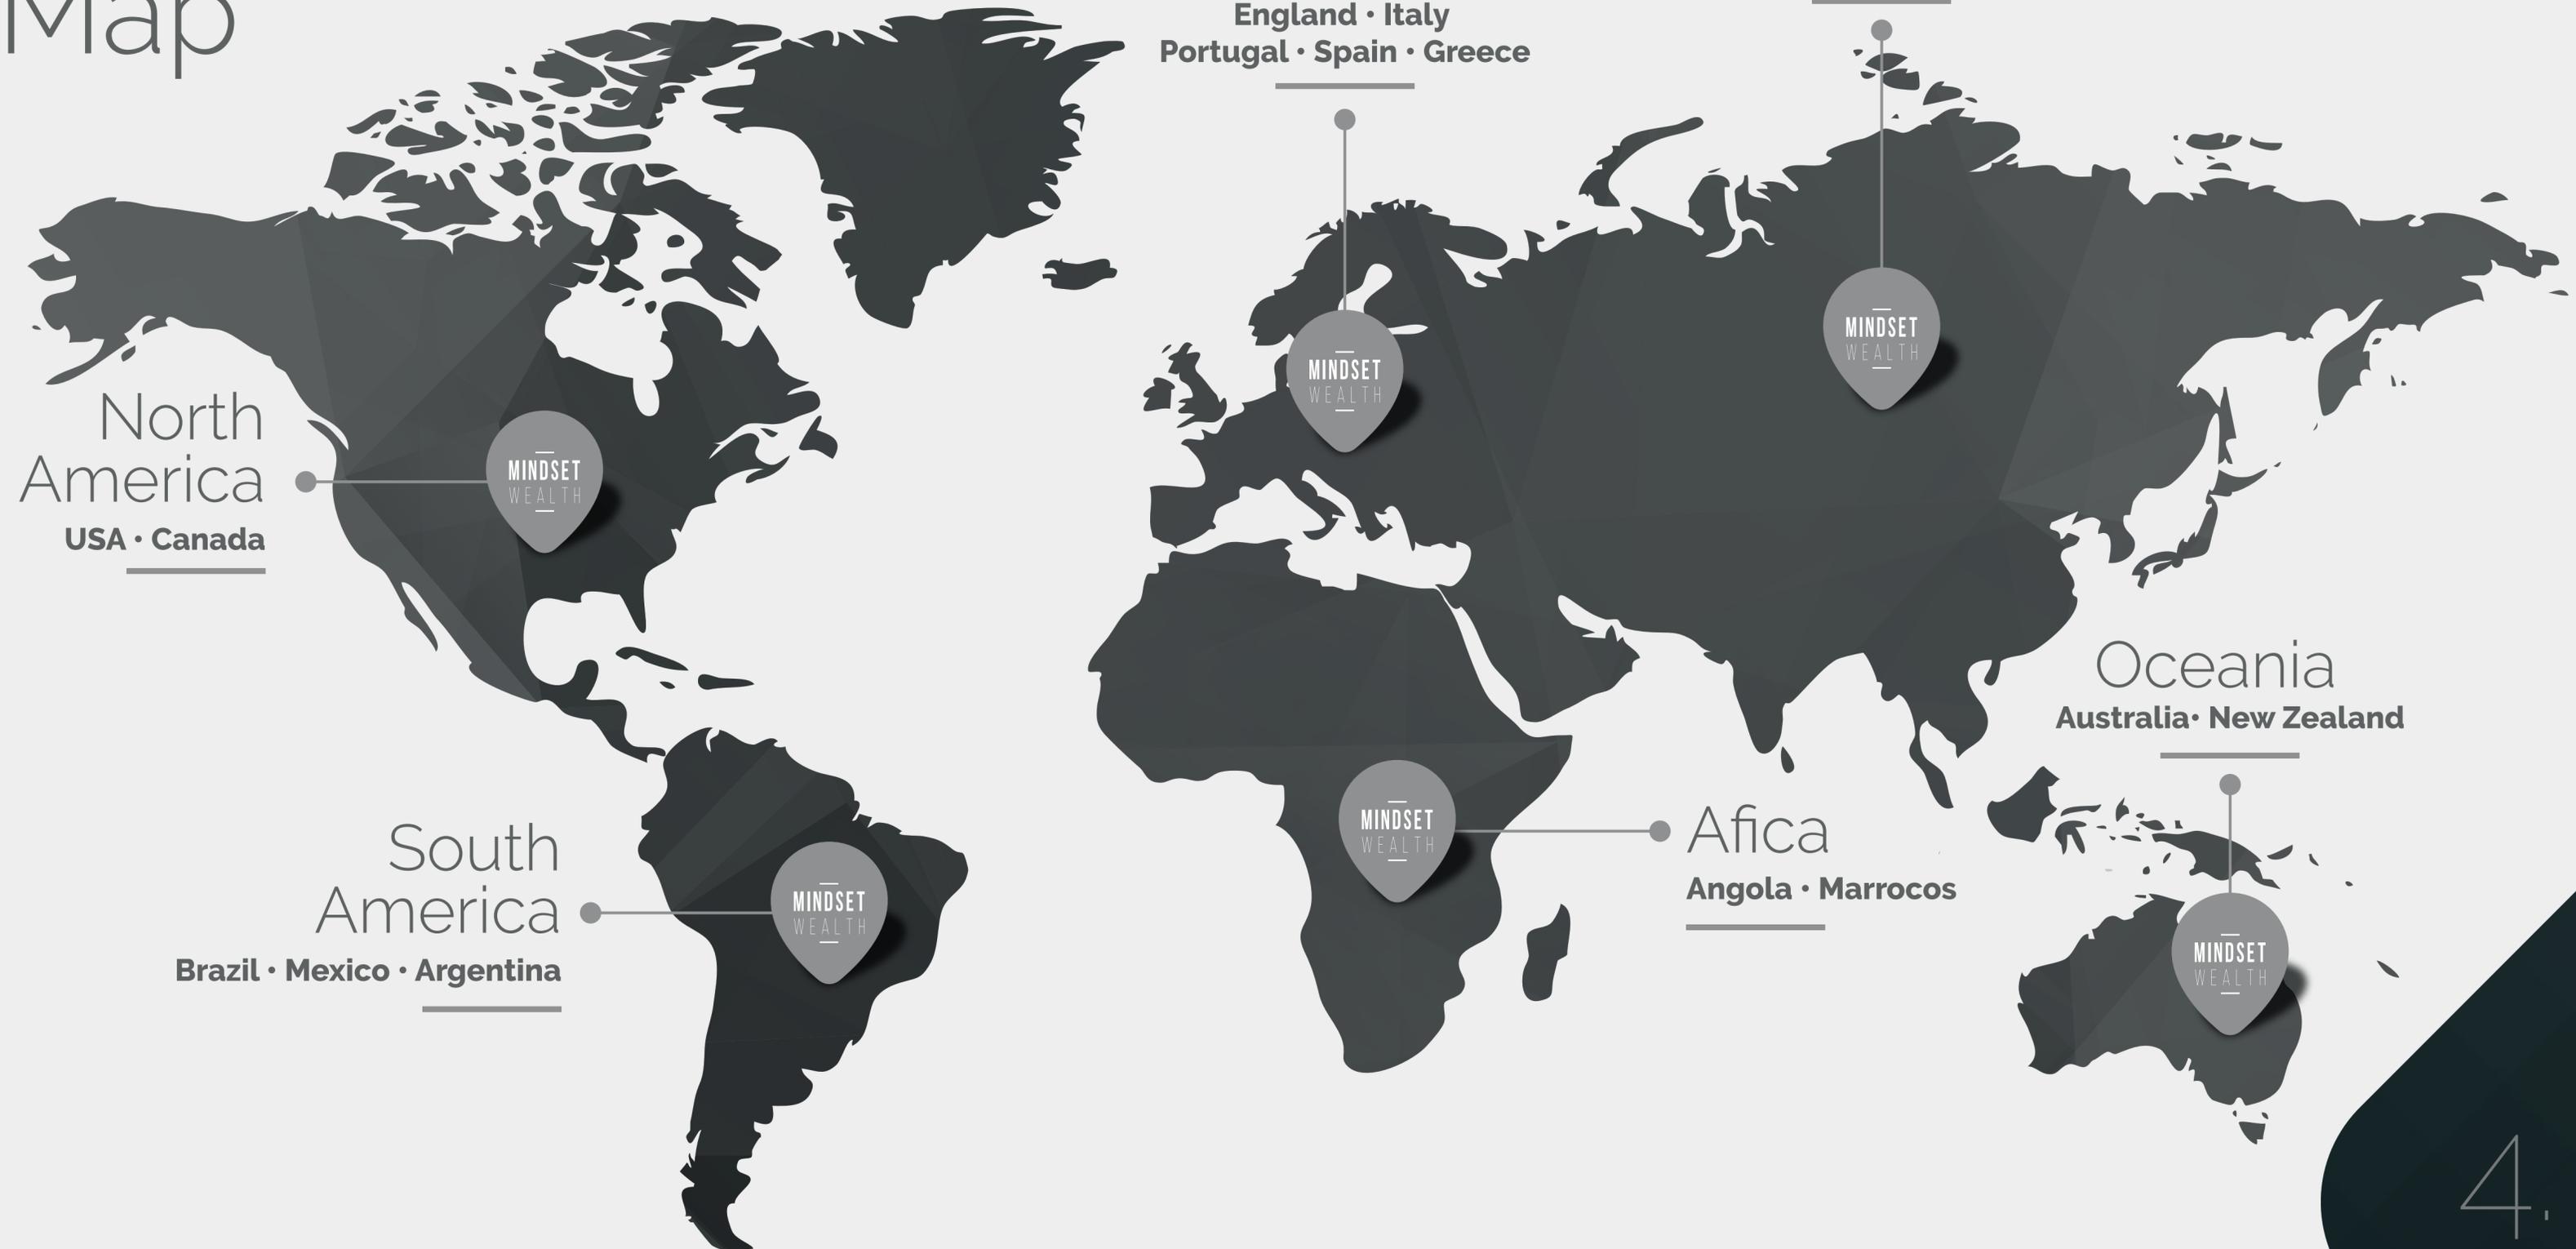

With our help, You will discover Your Purpose in Life and learn how others have discovered their mission in life. The purpose that will fuel your energy and motivation, and how you go after it.

Easily, You will learn the guiding principles for having a positive mindset, and how entrepreneurs create a mindset that cultivates success and grit.

We will show You extremely powerful tools and technologies available today to transform your life and your business by learning it from world-famous experts. At Worldwide Conference, You will form life-changing collaborations with people that will fuel your inspiration, ignite your passion, and help you form new partnerships.

Our community includes dozens of amazing entrepreneurs, scientists, business experts, and many others from all over the world. In our program, you will find your next co-founder, connect with members of your city, attend meet-ups. You will also have exclusive access to the latest technology news, breaking updates, and business strategies worth your attention and most importantly, learn how to create extreme WEALTH while making the world a BETTER PLACE.

Speakers

DAVID S. CHEN, PH.D.

CEO, Summit Bridge Group Inc

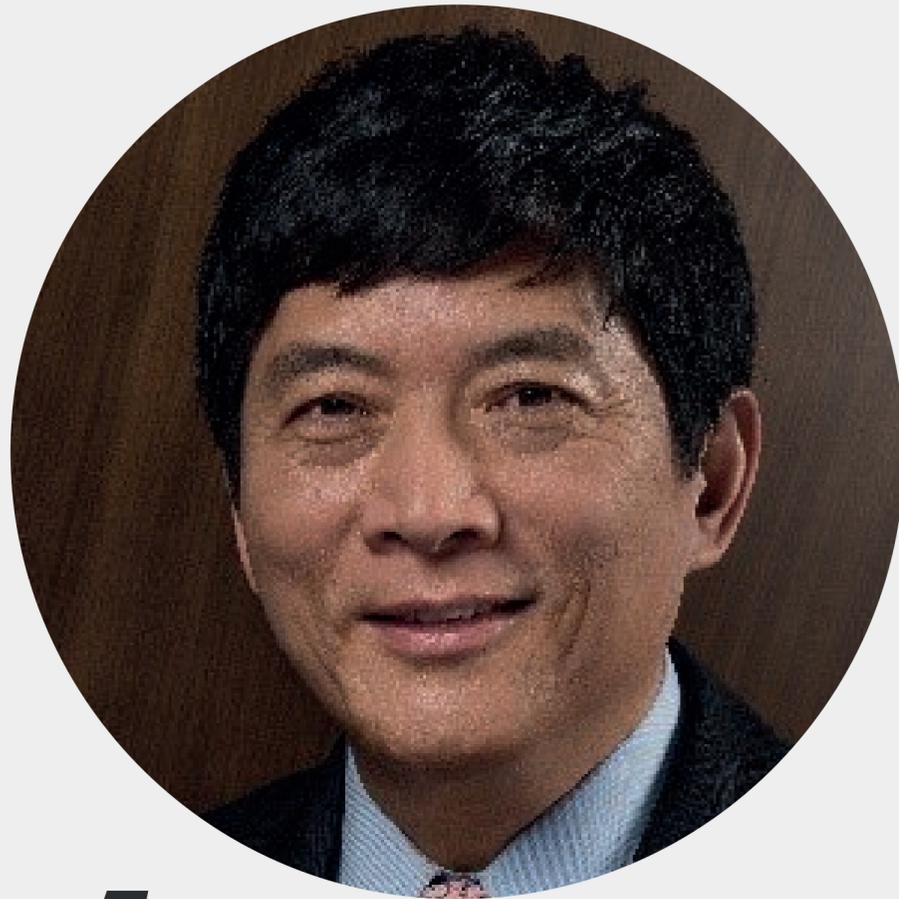

Dr. David S. Chen started his career in 1984 with General Motors Research Laboratory in Michigan, developing AI computer software for manufacturing automation. From 1994 to 2004, he worked for GM in China, where he played a key role in areas of joint venture negotiations, merge/acquisition projects, product portfolio planning and development, and joint venture management. From 2004 to April 2011, Dr. Chen, as Vice President of GM China and General Manager of GM Beijing Operations, had the responsibility for public policy, government affairs, and corporate social responsibility for GM in China.

In May 2011, Dr. Chen joined Microsoft. He serves as Vice President of Microsoft, General Manager of Corporate, External, and Legal Affairs for Great China Region (GCR), including China, Hong Kong and Taiwan. His responsibility includes promoting cooperation between Microsoft and Chinese government, developing new business initiatives, implementing corporate social responsibility and philanthropy projects, and ensuring Microsoft's business conduct complies with local law and regulations.

During his 7 years with Microsoft, Dr. Chen has been instrumental to develop new business initiatives in China including public cloud services (Office 365 and Azure), personal entertainment system (Xbox), AI applications, merge/acquisition deals, and internet related business initiatives such as

Skype and Bing search. Dr. Chen also plays a key role in supporting Microsoft deploying modern IT solutions in smart city projects to enable the digital transformation of the Chinese economy. He also facilitates US-China dialogues over cybersecurity and internet governance by creating a platform where candid discussions can take place among government officials, industry associations, companies, and academicians from US and China. Through a three-year tireless effort, Dr. Chen helped to place Windows 10 back to Chinese government procurement list after a rigorous cybersecurity review. Dr. Chen also led the Microsoft China team through the anti-trust investigations.

Dr. Chen founded The Summit Bridge Group in 2018, leveraging his rich experiences, to help MNCs to expand and grow business in China as well as to help Chinese companies to expand business overseas. Dr. Chen has a doctor degree in computer science from the University of Michigan, master degrees in mathematics and electrical engineering from Purdue University, and a Sloan master degree of management from Stanford University. He earned his bachelor degree in mathematics from East China Normal University.

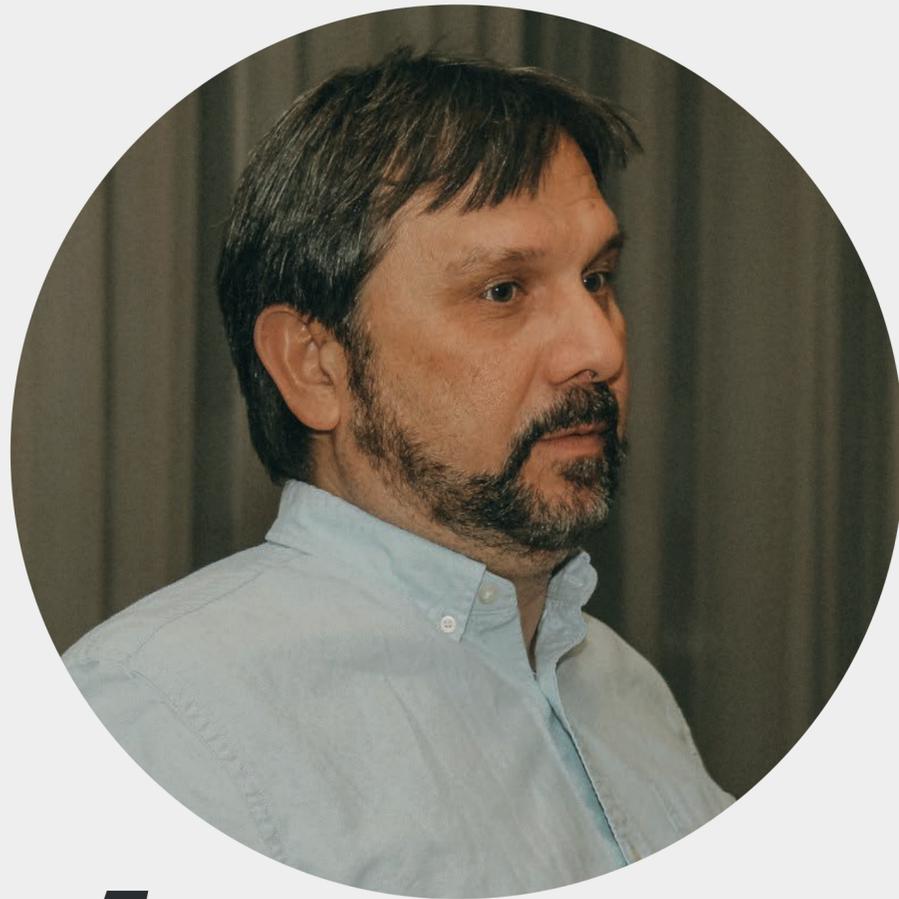

Dr. David S. Chen started his career in 1984 with General Motors Research Laboratory in Michigan, developing AI computer software for manufacturing automation

Speakers

STEVEN A. GARAN, Ph.D

Director of Bioinformatics at CREA and serves on it's Advisory Board

Steven A. Garan is the Director of Bioinformatics at CREA and serves on it's Advisory Board, he is also a researcher at the Lawrence Berkeley National Laboratory.

Steven A. Garan is the Director of Bioinformatics at CREA and serves on it's Advisory Board, he is also a researcher at the Lawrence Berkeley National Laboratory. While at the University of California, Berkeley, he played a major role in the invention and the development of the Automated Imaging Microscope System (AIMS). While at UC Berkeley, Garan collaborated for many years with a group from Paola S. Timiras's lab, on the role that caloric restriction plays in maintaining estrogen receptor-alpha and IGH-1 receptor immunoreactivity in various nuclei of the mouse hypothalamus. Garan was also the director of the Aging Research Centre, and is a leading scientist in the field of aging research. His numerous publications, include articles on systems biology, the effects of caloric restriction on the mouse hypothalamus and on the Automated Imaging Microscope System (AIMS). He is best known for the coining of word "Phenomics", which was defined in an abstract titled: "Phenomics: a new direction for the study of neuroendocrine aging", that was published in the journal Experimental Gerontology.

Steven A. Garan, was the lead scientists that developed the AIMS system along with Warren Freitag, Jason Neudorf and members of the UC Berkeley lab where AIMS was developed and utilized. Many journals articles have

been published about the system and the results that it produced. Since the completion of the first version in 1998, newer versions were developed, with the final version being completed in 2007. Empowering investigators to accurately count specific cell populations is essential to all fields of neurobiology. While computer assisted counting technology has been in use for over a decade, advances in an Automated Imaging Microscope System (AIMS), now insure 97% accuracy when comparing computer counts to human counts for both nuclear and cytoplasmic stained tissue. More importantly, regional analysis can now be customized so that only cell populations within specified anatomic regions will be targeted for counting, thus reducing the background noise of non-immunoreactive cells when characterizing specific cell populations. This application was recently used to successfully map the density and distribution of both nuclear expressed estrogen receptor-alpha and cytoplasmicly expressed IGF-1 receptor in specific hypothalamic nuclei. Furthermore, AIMS can now detect intra-hypothalamic differences in receptor expression and measure phenomenon such as lateralization.

Speakers

DARIA TSVENGER

Mindset Expert and creator of "The Dream Sprint"

Daria Tsvenger is a mindset expert and host & creator of the top personal growth program "The Dream Sprint". Her work has helped hundreds of people tap into the power of the brain to gain clarity and achieve their dreams with ease.

She has inspired hundreds of people on stages all over the world for clients including Robinhood, Prana and MGM Law. Daria shared her expertise on TV shows such as "Good Morning LA-LA-LAND", "Simulation" and the major publications like "ThriveGlobal", "Voyage LA". More than 30,000 passionate dreamers are following Daria's work.

Daria completed a Cognitive Neuroscience Stanford University extension program and had a chance to learn from top experts like Dr. Joe Dispenza, Tony Robbins, Dr. David Eagleman, Marisa Peer, and Dr. Loretta Breuning. She is available for comment on topics such as harnessing the power of neuroscience to achieve your dreams, priming your brain for success, and how to find your true purpose.

Daria Tsvenger is a mindset expert and host & creator of the top personal growth program "The Dream Sprint"

Speakers

MICHAEL GALE

Chief Executive Officer at Inc.Digital, Forbes Contributor, Thinkers
360 Top 50 AI global influencer

Michael Gale founded Strategic Oxygen in 2001, which was widely seen as one of the technology industry's primary data toolset for marketers, used by over 20 brands and used to model over \$4 billion in marketing and sales investments. The company was sold to Monitor Group, where he was a group partner from 2006 to 2010. In 2011, he became a partner at Pulsepoint Group, a digital consulting company, which was acquired by ICF in 2015. Michael has also served as chief web officer and GM at Micron Technology and was the vice president of Worldwide brand research at IntelliQuest.

Michael Gale founded Strategic Oxygen in 2001, which was widely seen as one of the technology industry's primary data toolset for marketers

Speakers

MOSS JACKSON, Ph.D.

CEO of Center for Psychological Services in Pennsylvania.

Moss Jackson is a psychologist and Success Coach specializing in Helping clients to rewire Brains for success and happiness. He is an accomplished writer, lecturer and life coach. He has written four books, including "Navigating For Success: Passion, Goals and Action " and "I Didn't Come To say Goodbye: Navigating The Psychology Of Immortality, " an Amazon best seller. He was a presenter at the first Raadfest Conference in 2016 where he discussed the epidemic of chronic stress disorder in the 21st ct. His most current work is focused on helping people to live well in order to live longer. He is a specialist in treating anxiety, trauma and chronic stress disorders. His talk today is "Getting Your Brain To Fall In Love With You." In his talk, he will focus on the impact of chronic stress on the brain and how to reverse the destructive impact of anxiety, resentment and regret on the aging process. A toolkit to enhance brain functioning will be introduced in which you will learn about the three most important psychological needs that are necessary for optimal brain health. If these three needs are satisfied on a daily basis, there is a reduced impact of cortisol and adrenaline on the brain and body, thus reversing the chronic stress dynamic.

“ Moss is a psychologist and Success Coach who specializes in helping clients to rewire their brains for success and happiness. ”

Speakers

NAVEEN JAIN

Founder and CEO (or/and Chairman) of Moon Express, Viome, Bluedot, TalentWise, Intelius and InfoSpace.

“The real metric of success isn't the size of your bank account. It's the number of lives in whom you might be able to make a positive difference”

Naveen Jain is an entrepreneur and philanthropist driven to solve the world's biggest challenges through innovation. He is the founder of several successful companies including Moon Express, Viome, Bluedot, TalentWise, Intelius and InfoSpace.

Moon Express is the only company to have permission from the US government to leave earth orbit and land on the moon. We are developing technologies to harvest planetary resources on the moon and developing infrastructure to make humanity a multi-planetary society.

Viome is focused on disrupting healthcare with the goal of “making illness elective”. We have developed technologies to analyze the biochemistry and ecosystem of our body that consists of millions of metabolites and trillions of micro-organisms. Our plan is to identify biomarkers that are predictive of chronic diseases and prevent them through personalized diet & nutrition.

Naveen Jain a trustee of the board at the X PRIZE Foundation where he is focused on finding entrepreneurial solutions to address the global challenges in health, education,

women empowerment, agriculture, and energy. He recently launched a million-dollar Women Safety XPRIZE to empower the women around the world.

Naveen Jain is on the board of Singularity University, an interdisciplinary university with the mission to educate and inspire leaders to address humanity's grand challenges through innovative technologies.

Naveen Jain has been awarded many honors for his entrepreneurial successes and leadership skills including “Ernst & Young Entrepreneur of the Year”, “Albert Einstein Technology Medal” for pioneers in technology, “Humanitarian Innovation Award” at the United Nations, “Distinguished Global Thinker Award” by IILM, “Most inspiring Entrepreneur” by Andaz TV, “Most admired Serial Entrepreneur” by Silicon India, “Top 20 Entrepreneurs” and “Lifetime Achievement Award” for the leadership in the technology industry and support of other entrepreneurs by Red Herring. Whether it's business or life, Naveen is guided by one firm belief – Our only limit is our imagination.

Speakers

NUNO MARTINS, Ph.D.

Polymath, researcher, entrepreneur, and a healthy life extension advocate.

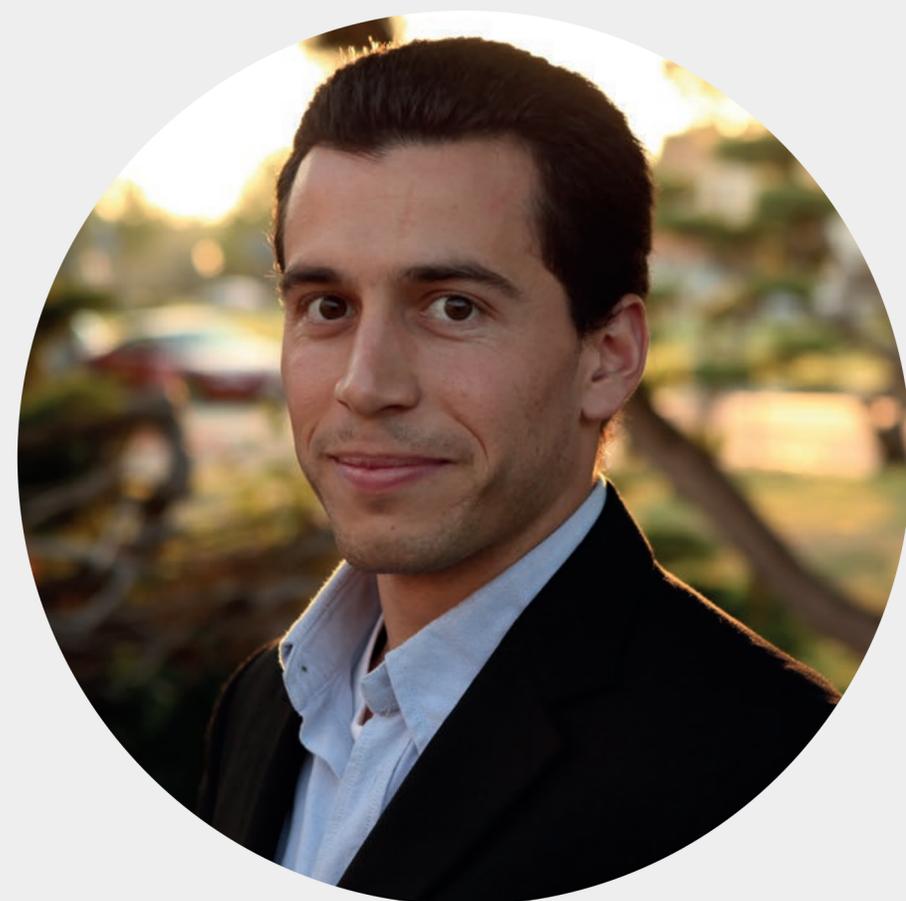

Nuno is a polymath, a researcher, an entrepreneur, and a life and health extension advocate. As a polymath, he usually likes to make use of different subject areas, drawing ideas and concepts from different bodies of knowledge to solve specific problems.

As an illustrative example, his published papers involve several fields of research, for example: quantitative neuroscience, computer science, nanotechnology, robotics, and others. Several previous education experiences have supported and nurtured his polymath approach to problems. As a researcher, he is interested in any scientific, engineering, or technological development with potential applications or consequences for healthy life extension. Along these lines, he is currently focused on developing technologies for human healthy life extension.

In business, he created his own company to fund his education. Along the way, several academic awards and grants contributed to his necessary funding strategy. The growth of his original company permitted him to create a business group embracing a set of different companies that operate in a large spectrum of business sectors, including: business consulting, education, information technologies, healthcare services, online sales, and several others.

On life extension related topics, early in his life, motivated to take control of his own health he decided to make several courses related to health-care, body training and nutrition. Thus, he completed several courses related to life and health care, for example, he is a swimming teacher, a professional tennis teacher, a body-building and aerofitness teacher, a power-lifting professor, and he completed also several courses in nutrition and sleep optimization.

As public speaker Nuno participates in conferences and meeting providing high quality professional presentations in his style. One of Nuno's public appearances was on a groundbreaking large conference (attended by approximately one thousand attendees), where Nuno presented along with amazing celebrities, such as: the visionary billionaire Peter Nygard, the always inspiring Suzanne Somers, and the famous futurist Ray Kurzweil, among many other celebrities... Nuno makes easy the understanding of technical challenging subjects, making accessible to the general audience the most difficult problems.

Healthy life extension should be the priority for everyone.

Speakers

MARK A. VOELKER, Ph.D.

Physicist and optical engineer

Mark Voelker, 63, is a physicist and optical engineer currently living in Las Vegas, Nevada. He is building an astronomical observatory which will be accessed and controlled online by professional and amateur astronomers. In addition to astronomy and physics, he is interested and active in cryonics, life extension, and the economics and history of money and banking. He earned a doctorate in Optical Sciences from the University of Arizona in 1993 and has done engineering and research in infrared astronomy, scanning probe microscopy, hyperspectral imaging, cryopreservation, and high pressure physics. He served on the Board of Directors of the Alcor Foundation in Scottsdale, Arizona from 1992-1999 and currently serves on the Board of the United Precious Metals Association in Alpine, Utah.

Mark Voelker, 63, is a physicist and optical engineer currently living in Las Vegas, Nevada.

Speakers

LAURIE HANDLERS

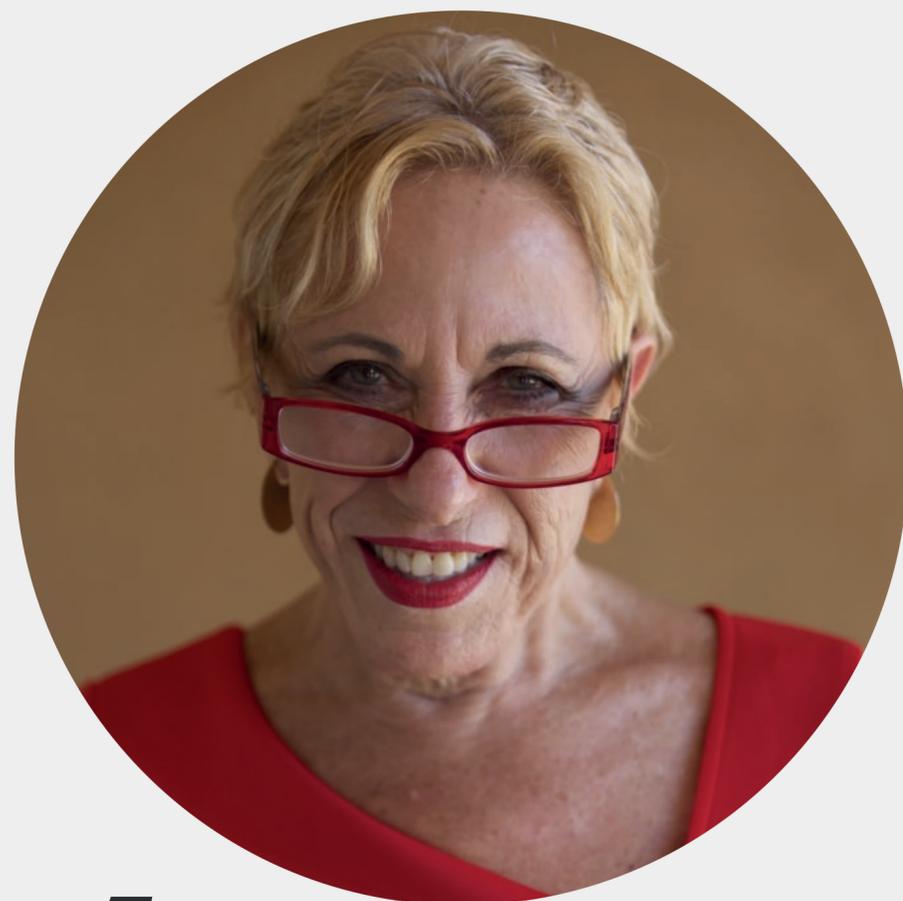

Sex and happiness coach

Laurie Handlers is a Sex and Happiness Coach, author of Amazon #1 International Bestseller Sex & Happiness. Through her company Butterfly Workshops, she offers sexual health and awareness courses plus leadership courses for corporations and individuals throughout the world. For over a decade, she has hosted a weekly radio show Sex and Happiness where she discusses all topics about sex. She has also produced and starred in two independent films. Her current focus is on Sexual Ecstasy at Any Age. She spends a great amount of her time learning about Radical Life Extension.

Laurie holds a Masters degree in Education and a Bachelor's degree in Psychology and Sociology. Her career includes over thirty years as a corporate change consultant, individual empowerment coach and international seminar leader.

She is a dynamic speaker, facilitator and has taught transformational workshops for women, men, couples, singles, parents and teens since 1978 on techniques and secrets that are the basis of healing the body, releasing past emotional trauma, stopping the aging process, and reducing stress.

Pod casts from her former internet radio show Tantra Café can be accessed here. Podcasts from her new show Sex and Happiness can be accessed at <http://webtalkradio.net/shows/sex-and-happiness>. Laurie stars in a hilarious indie documentary Tantric Tourists <http://tantrictourists.com/>.

And in the end, the love you
take is equal to the love you
make.

Speakers

JAMES HUGHES, Ph.D

Executive Director of the Institute for Ethics and Emerging Technologies

James Hughes Ph.D., the Executive Director of the Institute for Ethics and Emerging Technologies, is a bioethicist and sociologist who serves as the Associate Provost for Institutional Research, Assessment and Planning for the University of Massachusetts Boston. He holds a doctorate in sociology from the University of Chicago, where he also taught bioethics at the MacLean Center for Clinical Medical Ethics. Dr. Hughes is author of *Citizen Cyborg: Why Democratic Societies Must Respond to the Redesigned Human of the Future*, and is working on a second book tentatively titled *Cyborg Buddha*. From 1999-2011 he produced the syndicated weekly radio program, *Changesurfer Radio*.

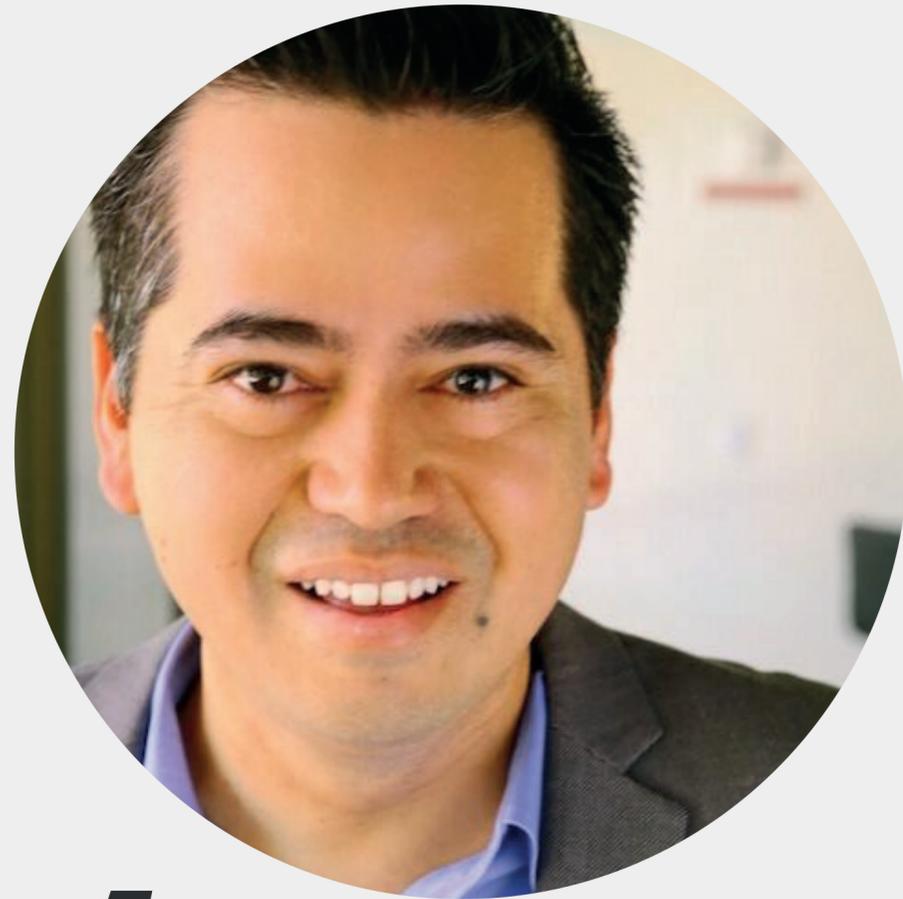

Dr. Hughes is a Fellow of the World Academy of Arts and Sciences, and a member of Humanity+, the Neuroethics Society, the American Society of Bioethics and Humanities and the Working Group on Ethics and Technology at Yale University. He serves on the State of Connecticut Regenerative Medicine Research Advisory Committee (formerly known as the Stem Cell Research Advisory Board).

Dr. Hughes speaks on medical ethics, health care policy and future studies worldwide.

Bioethicist and sociologist who serves as the Associate Provost for Institutional Research,

JOVAN REBOLLEDO

Researcher, Inventor, Innovator & Entrepreneur In Exponential Technologies.

I have been applying AI to a series of diverse problems, from neuroscience, to space, to genomics, to cancer, to education. I have been published in international peer-reviewed journals, presented at conferences and written and get patents. Developed and applied machine learning techniques to research in multiple disciplines. Helped in design and development of the core technologies (in AI & robotics) for 50+ startups/ tech projects coming from Singularity University, located inside NASA Research Center, at Silicon Valley, in California, USA. Inspired and transformed mindsets of Japanese students to produce outstanding startup projects (@KeioUniversity). Led and created groups and communities since junior-high school, and from teenagers to graduate students, in different countries. Selected and interviewed by the Cabinet of Japanese Government for innovation in Japan. Taught since teenager from children to graduate students in different areas, from rural areas in Mexico to Stanford and NASA Ames Research Park. Worked with USA Astronaut and co-led workshops with IBM Watson creator.

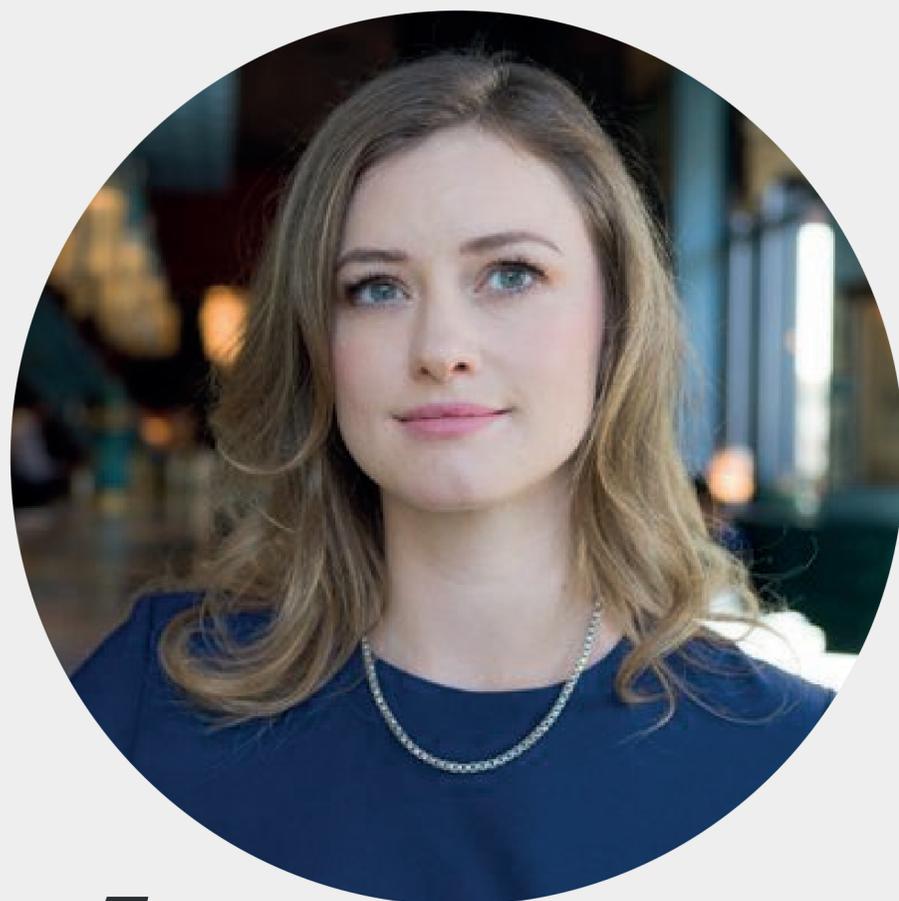

I have been applying AI to a series of diverse problems, from neuroscience, to space, to genomics, to cancer, to education.

JESSICA SCORPIO

Founder and Director of Marketing at Getaround and founding member of the Global Shapers Community of the World Economic Forum

Jessica is the Founder and Director of Marketing at Getaround. She completed the inaugural class of Singularity University and is a founding member of the Global Shapers Community of the World Economic Forum. Jessica previously founded IDEAL, a non-profit focused on connecting young leaders with seasoned experts and worked in the Canadian Prime-Minister's office as a writer and brand marketer.

Jessica is the Founder and Director of Marketing at Getaround.

Speakers

WILLIAM FALOON

Co-Founder Life Extension Buyers Club, Inc. and Society for Rescue of Our Elders (RescueElders.org)

Since 1980, Bill Faloon and The Life Extension Foundation have uncovered pioneering approaches for preventing and treating the diseases of aging.

These avant-garde advances were meticulously chronicled in Life Extension's publications many years before conventional doctors recognized them.

In order to enlighten supporters to these life-saving therapies, Bill Faloon compiled a 1500-page medical reference book titled Disease Prevention and Treatment that is now in its 5th printed edition.

To educate the public about Life Extension's innovative medical protocols, Bill Faloon has been featured in hundreds of media appearances including The Phil Donahue Show, The Joan Rivers Show, Tony Brown's Journal, ABC News Day One, and Newsweek magazine.

A review of what Bill Faloon and The Life Extension Foundation has accomplished over the past 37 years reveals just how badly conventional medicine lags behind lifesaving scientific advances. Bill Faloon has authored books exposing the atrocities committed against the American public by FDA bureaucrats, including Pharmocracy, which reveals how corrupt deals and misguided medical regulations are bankrupting America and what can be done to

resolve it. Back in 1980, few scientists believed that anything could be done to prevent the degenerative effects inflicted by aging. To counter this misconception, William Faloon pointed to then-current scientific studies showing that it was possible to prevent some age-related diseases and to slow the aging process itself, at least in animals. He argued that if enough funds were committed to research, therapies to retard human aging could be developed that would result in the greatest revolution in medical history. Being controversial carries a heavy price. The federal government raided his facilities twice, initiated an 11-year criminal investigation, and threw him and Saul Kent in jail in 1991. When the FDA conducted its first armed raid in 1987, the Life Extension Foundation had only 4,000 members. Thanks to publicity generated by the FDA's actions, this number grew to 25,000 members by the time his criminal indictments were dismissed in 1995. LEF now has over 300,000 supporters to whom it mails its monthly Life Extension Magazine.

Support for the nonprofit Life Extension Foundation is at an all-time high because people are becoming aware that recommendations published by Life Extension in the early 1980s are now scientifically validated and many even accepted by the medical establishment.

Accelerating human age reversal research

STUART MAUDSLEY, PH.D.

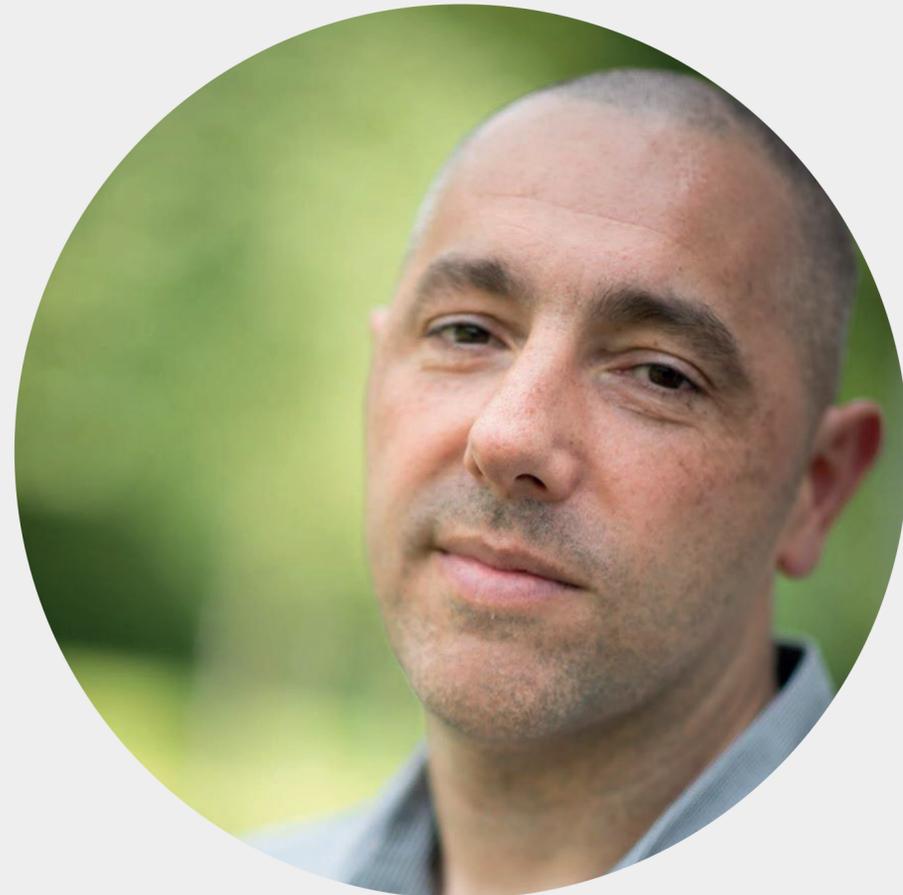

Stuart graduated from the University of Leeds in the U.K. with a First Class Honors degree in Pharmacology and was awarded the Pfizer Prize for his undergraduate research. For his doctoral research Stuart was awarded the Ackroyd, Brotherton and Brown Scholarship at the University of Leeds.

Stuart was then awarded a Howard Hughes Medical Institute Fellowship to train with Professor Robert Lefkowitz (2012 Nobel Laureate in Chemistry) at Duke University. After this post-doctoral fellowship Stuart was recruited to be the Principal Investigator of the Receptor Biology Section at the Medical Research Council (MRC) -Human Reproductive Sciences Unit within the University of Edinburgh. During his time at the MRC he developed novel prostate cancer therapeutics based upon his research into G protein-coupled receptor (GPCR) pluridimensional signaling. To broaden his already considerable biomedical experience Stuart then accepted the position of Head of the Receptor Pharmacology Unit at the National Institutes of Health – National Institute on Aging at the Johns Hopkins University Medical Center. While at the NIH Stuart was the recipient of the coveted NIH 'Bench-to-Bedside' Translational Research Grant Award, one of the few awards available within the intramural NIH program. Upon starting a new family, and returning to

Head of the Receptor Biology Lab at the University of Antwerp

Europe, Stuart continued his rigorous scientific journey with the award of the highly-valued Odysseus Program Type I Program Grant to work as both the Adjunct Director of the VIB Center for Molecular Neurology and also ViceChair of the Department of Biomedical Sciences at the University of Antwerp. Stuart's current research, in his Receptor Biology Lab, focusses on the development of novel GPCR-based anti-aging therapeutics. This research stream is now forming the basis of a new technology-based start-up company to help screen and develop novel longevity/disease-regulating compounds. Stuart graduated from the University of Leeds in the U.K. with a First Class Honors degree in Pharmacology and was awarded the Pfizer Prize for his undergraduate research. For his doctoral research Stuart was awarded the Ackroyd, Brotherton and Brown Scholarship at the University of Leeds.

Stuart was then awarded a Howard Hughes Medical Institute Fellowship to train with Professor Robert Lefkowitz (2012 Nobel Laureate in Chemistry) at Duke University.

Stuart graduated from the University of Leeds in the U.K. with a First Class Honors degree in Pharmacology and was awarded the Pfizer Prize for his undergraduate research.

In
Words

Benefits

Six major Benefits of Attending

1.

Transform you life

Apply and join our amazing group of entrepreneurs, executives, and investors committed to transforming their successful life into a life with purpose and significance.

Join a very special community

Mindset wealth is an amazing membership community of extraordinary entrepreneurs, executives and investors.

2.

3.

Attend an amazing 1-Day Intensive Conference

In our programs our members discuss disruptive technologies and the opportunities they bring for creating more wealth while making the world a better place.

24.

Benefits

Six major Benefits of Attending

4.

Learn About the New Emerging Technologies

Get advanced insight and understanding how new emerging technologies will disrupt every existing industry, and create an opportunity for those who get ready for it.

Leverage To Profit from Cutting-Edge Technologies

The vast majority of our speakers own or run businesses ranging from \$1Million to more than \$1Billion in annual revenue and are committed to turning their success into global significance.

5.

6.

Shift From Success to Significance

Disrupt your competitors before you get disrupted by your competitors – Learn how to grow your business 10x or even 100x, think globally and exponentially, and aim to impact the whole world.

Six Goals

1.

Incentivise

Incentivise and motivate entrepreneurs and CEO's of great companies to make the world a better place and create tremendous wealth while doing it: To motivate and educated the world on pursue a life of purpose while creating tremendous wealth.

2.

Educate

Education and inspire people to follow a life of purpose while creating personal wealth: To educate the world's population about the new technologies which will empower them to create tremendous while making a better world.

3.

Accelerate

Accelerate research and investment in solving some of the worlds most pressing issues while creating tremendous wealth: To give the stage to the world-known speakers, motivating the amazing researcher and entrepreneurs to continue their work. To motivate venture capitals to invest more on making the world a better place. To motivate entrepreneurs to continue pursuing the creation of companies that can change the world.

4.

Connect

Connect and inspire everyone interested in pursuing a life of purpose globally: To connect everyone globally making collaboration among any regions in the world viable and feasible

5.

Focus

Platform for constant evaluation and focusing on the target of creating wealth and pursuing a life of purpose by solving some humanities problems with technology: Help you continue to pursue the purpose of your while creating an enormous wealth

6.

Create

Create the required catalytic environment for success and significance: Mindset Wealth wants to catalyse everything necessary to make entrepreneurs visions a reality as soon as possible for the benefit of humanity
